A Summary of Your Rights Under the Fair Credit Reporting Act

The federal Fair Credit Reporting Act (FCRA) promotes the accuracy, fairness, and privacy of information in the files of consumer reporting agencies. There are many types of consumer reporting agencies, including credit bureaus and specialty agencies (such as agencies that sell information about check writing histories, medical records, and rental history records). Here is a summary of your major rights under the FCRA. **For more information, including information about additional rights, go to www.ftc.gov/credit or write to: Consumer Response Center, Room 130-A, Federal Trade Commission, 600 Pennsylvania Ave. N.W., Washington, D.C. 20580.**

- **You must be told if information in your file has been used against you.** Anyone who uses a credit report or another type of consumer report to deny your application for credit, insurance, or employment – or to take another adverse action against you – must tell you, and must give you the name, address, and phone number of the agency that provided the information.
- **You have the right to know what is in your file.** You may request and obtain all the information about you in the files of a consumer reporting agency (your “file disclosure”). You will be required to provide proper identification, which may include your Social Security number. In many cases, the disclosure will be free. You are entitled to a free file disclosure if:
 - a person has taken adverse action against you because of information in your credit report;
 - you are the victim of identify theft and place a fraud alert in your file;
 - your file contains inaccurate information as a result of fraud;
 - you are on public assistance;
 - you are unemployed but expect to apply for employment within 60 days.In addition, by September 2005 all consumers will be entitled to one free disclosure every 12 months upon request from each nationwide credit bureau and from nationwide specialty consumer reporting agencies. See www.ftc.gov/credit for additional information.
- **You have the right to ask for a credit score.** Credit scores are numerical summaries of your credit-worthiness based on information from credit bureaus. You may request a credit score from consumer reporting agencies that create scores or distribute scores used in residential real property loans, but you will have to pay for it. In some mortgage transactions, you will receive credit score information for free from the mortgage lender.
- **You have the right to dispute incomplete or inaccurate information.** If you identify information in your file that is incomplete or inaccurate, and report it to the consumer reporting agency, the agency must investigate unless your dispute is frivolous. See www.ftc.gov/credit for an explanation of dispute procedures.
- **Consumer reporting agencies must correct or delete inaccurate, incomplete, or unverifiable information.** Inaccurate, incomplete or unverifiable information must be removed or corrected, usually within 30 days. However, a consumer reporting agency may continue to report information it has verified as accurate.
- **Consumer reporting agencies may not report outdated negative information.** In most cases, a consumer reporting agency may not report negative information that is more than seven years old, or bankruptcies that are more than 10 years old.
- **Access to your file is limited.** A consumer reporting agency may provide information about you only to people with a valid need -- usually to consider an application with a creditor, insurer, employer, landlord, or other business. The FCRA specifies those with a valid need for access.
- **You must give your consent for reports to be provided to employers.** A consumer reporting agency may not give out information about you to your employer, or a potential employer, without your written consent given to the employer. Written consent generally is not required in the trucking industry. For more information, go to www.ftc.gov/credit.

GIVE THIS COPY TO APPLICANT

- **You may limit “prescreened” offers of credit and insurance you get based on information in your credit report.** Unsolicited “prescreened” offers for credit and insurance must include a toll-free phone number you can call if you choose to remove your name and address from the lists these offers are based on. You may opt-out with the nationwide credit bureaus at 1-888-5-OPTOUT (1-888-567-8688).
- **You may seek damages from violators.** If a consumer reporting agency, or, in some cases, a user of consumer reports or a furnisher of information to a consumer reporting agency violates the FCRA, you may be able to sue in state or federal court.
- **Identity theft victims and active duty military personnel have additional rights.** For more information, visit www.ftc.gov/credit.

States may enforce the FCRA, and many states have their own consumer reporting laws. In some cases, you may have more rights under state law. For more information, contact your state or local consumer protection agency or your state Attorney General. Federal enforcers are:

Accelerated Benefit Rider Disclosure

United of Omaha Life Insurance Company

When the Accelerated Benefit is paid under the terms of this rider, the life insurance policy to which this rider is attached will terminate. The Accelerated Benefit may be taxable. Receipt of this Benefit may adversely affect your eligibility for Medicaid or other government benefits or entitlements. You should consult your personal tax advisor or the Social Security Administration before requesting this Benefit.

This rider is part of the policy to which it is attached. It is subject to all of the policy provisions that are not inconsistent with the rider provisions. This rider is effective on the policy's date of issue.

Accelerated Benefit

While this rider is in force, you may make a one-time election to receive the Accelerated Benefit if the Insured is diagnosed as having a Terminal Illness. **Terminal Illness** means a medical condition that, with a reasonable degree of certainty, will result in the Insured's death within 12 months or less from the date a physician signs the statement of proof of Terminal Illness.

The Accelerated Benefit amount will equal:

- (a) 94% of the net death benefit of the policy; plus
- (b) 94% of any term insurance rider on the Insured's life that is attached to the policy.

The Accelerated Benefit is not available if the sum of the death benefit under the policy and the death benefit under any term insurance rider on the Insured's life is greater than \$500,000.

There is no premium or cost of insurance charge for this benefit.

Term life insurance riders, if attached to the base plan, will be terminated, but are included in the Accelerated Benefit calculation. Non-term life insurance riders such as the Accidental Death Benefit will terminate when the Accelerated Benefit option is invoked.

Any outstanding loans will be deducted from the death benefit before the Accelerated Benefit is calculated.

Termination

The policy and all riders attached to it will terminate when the Accelerated Benefit is paid. Any rider that covers the life of another person and that includes a conversion provision may be converted to a new policy as specified in the rider.

This rider will terminate on the earliest of the following:

- (a) the date the Accelerated Benefit is paid;
- (b) the date the policy terminates; or
- (c) the maturity date of the policy.

I acknowledge receipt of this Disclosure Form.

Accelerated Benefit Rider Disclosure

United of Omaha Life Insurance Company

When the Accelerated Benefit is paid under the terms of this rider, the life insurance policy to which this rider is attached will terminate. The Accelerated Benefit may be taxable. Receipt of this Benefit may adversely affect your eligibility for Medicaid or other government benefits or entitlements. You should consult your personal tax advisor or the Social Security Administration before requesting this Benefit.

This rider is part of the policy to which it is attached. It is subject to all of the policy provisions that are not inconsistent with the rider provisions. This rider is effective on the policy's date of issue.

Accelerated Benefit

While this rider is in force, you may make a one-time election to receive the Accelerated Benefit if the Insured is diagnosed as having a Terminal Illness. **Terminal Illness** means a medical condition that, with a reasonable degree of certainty, will result in the Insured's death within 12 months or less from the date a physician signs the statement of proof of Terminal Illness.

The Accelerated Benefit amount will equal:

- (a) 94% of the net death benefit of the policy; plus
- (b) 94% of any term insurance rider on the Insured's life that is attached to the policy.

The Accelerated Benefit is not available if the sum of the death benefit under the policy and the death benefit under any term insurance rider on the Insured's life is greater than \$500,000.

There is no premium or cost of insurance charge for this benefit.

Term life insurance riders, if attached to the base plan, will be terminated, but are included in the Accelerated Benefit calculation. Non-term life insurance riders such as the Accidental Death Benefit will terminate when the Accelerated Benefit option is invoked.

Any outstanding loans will be deducted from the death benefit before the Accelerated Benefit is calculated.

Termination

The policy and all riders attached to it will terminate when the Accelerated Benefit is paid. Any rider that covers the life of another person and that includes a conversion provision may be converted to a new policy as specified in the rider.

This rider will terminate on the earliest of the following:

- (a) the date the Accelerated Benefit is paid;
- (b) the date the policy terminates; or
- (c) the maturity date of the policy.

I acknowledge receipt of this Disclosure Form.

Notice and Consent Form for AIDS Virus (HIV) Antibody/Antigen Testing

Mutual of Omaha Insurance Company

- ATTN: Life Agency: Mutual of Omaha Plaza, Omaha, NE 68175

- ATTN: True Group: Mutual of Omaha Plaza, Omaha, NE 68175

To evaluate your eligibility for insurance coverage, it is requested that you consent to be tested to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV). By signing and dating this form, you agree that these tests may be performed and that underwriting decisions (for example, the decision to accept or reject your application) will be based on the test results. You may have ten (10) days to decide whether you wish to sign this form. You may refuse to be tested. However, such refusal may be used by the insurer as a reason to deny coverage. Please see below for additional counseling information.

Information on HIV

HIV, the virus that causes AIDS, is transmitted from one person to another through blood, semen and vaginal fluids. The disease is spread primarily during anal, vaginal or oral intercourse, the sharing of needles and syringes used for shooting drugs, or from a mother to her unborn child. **HIV is not spread through casual contact, such as eating with or touching a person infected with the virus. There is no medical evidence that HIV is spread by kissing.**

Persons most at risk of contracting HIV are men who have sex with other men; intravenous (IV) drug users; prostitutes (male or female); persons who have had many sexual partners since 1977; persons who received transfusions of blood or blood products prior to March 1985; the sexual partners of persons in any of these groups; and infants born to infected mothers.

Pre-Test Counseling Considerations

Many public health organizations have recommended that before taking an HIV antibody/antigen test a person should seek counseling to become fully informed about the implications of such tests. You may wish to consider obtaining such counseling at your own expense prior to being tested. Free confidential counseling is available in most Arizona communities. If you need information about the availability of counseling in your area, contact your county health department **or**:

Phoenix metropolitan area: 253-2437
(Arizona AIDS Information Line)

Outside the Phoenix area 1-800-334-1540
(Arizona Department of Health Services)

Disclosure of Test Results

All test results will be treated confidentially. The results of the tests will be reported to the insurer identified on this form. Results of the tests will not be otherwise disclosed without your written consent, except as required or allowed by law. Disclosure of HIV test results pertaining to your application for insurance is governed by A.R.S. §20-448.01.

Meaning of Positive Test Results

The most commonly used test is designed to detect the presence of antibodies to the virus. Antibodies are made by the body's immune system to fight infection. While positive HIV antibody test results do not mean that you have AIDS, they do indicate that you have been infected with HIV, the virus that caused AIDS.

Positive HIV antibody/antigen test results will adversely affect your application for insurance. This means that your application will probably be declined.

Life Insurance Buyer's Guide

Prepared by the National Association of Insurance Commissioners

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.

This guide does not endorse any company or policy.

This Guide can show you how to save money when you shop for life insurance. It helps you to:

- Decide How Much Life Insurance You Should Buy
- Decide What Kind of Life Insurance Policy You Need
- Compare the Cost of Similar Life Insurance Policies

Buying Life Insurance

When you buy life insurance, you want a policy which fits your needs without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes which are described in this guide. A good life insurance agent or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance agent or company or books on life insurance in your public library.

Choosing the Amount

One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance:

- Term insurance
- Whole life insurance
- Endowment insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the agent or company if it combines more than one kind of life insurance. The following is a brief description of the three basic kinds:

Term Insurance

Term insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Whole Life Insurance

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop “cash values” which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called “nonforfeiture benefits.” This refers to benefits you do not lose (or “forfeit”) when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money which you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance

An endowment insurance policy pays a sum or income to you — the policyholder — if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than the same amount of whole life insurance. Thus endowment insurance gives you the least amount of death protection for your premium dollar.

Finding a Low Cost Policy

After you have decided which kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the “Surrender Cost Index” and the other is the “Net Payment Cost Index.” It will be worth your time to try to understand how these indexes are used, but in any event, use them **ONLY** for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What Is Cost?

“Cost” is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called “participating” policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called “guaranteed cost” or “non-participating” policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be.

The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What Are Cost Indexes?

In order to compare the cost of policies, you need to look at:

- Premiums
- Cash Values
- Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and to subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance agents and companies:

- Life Insurance Surrender Cost Index. This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.
- Life Insurance Net Payment Cost Index. This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non-participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non-participating policy will not change.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for all types of insurance at all ages and for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.
- Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.
- In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future, to you as a policyholder.
- These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

Important Things To Remember — A Summary

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums most closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy. If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS. A good life insurance agent can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the agent or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.

Replacement of Life Insurance or Annuities

United of Omaha Life Insurance Company

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older—are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

Notice: You have the right to return the policy within 30 days of delivery and receive an unconditional full refund of all premiums or considerations paid on it including any policy fees or charges. In the case of a variable or market value adjustment policy, you will receive the cash surrender value plus any fees or other charges deducted from the gross premiums or considerations.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy, to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? YES NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? YES NO

If you answered “yes” to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured, and the contract number if available) and whether each policy will be replaced or used as a source of financing:

Insurer Name	Contract or Policy #	Insured	Replaced (R) or Financing (F)

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

Employer Owned Life Insurance Policies

Acknowledgement

Section 101(j) of the Internal Revenue Code (“IRC”) became effective on August 18, 2006. This section provides that when an applicable policyholder (employer or related party) is the owner and beneficiary of a life insurance policy insuring the life of an employee, the death benefit may be taxable. This tax consequence can be avoided if the insured is a member of a class exempted from this treatment by IRC section 101(j) and notice and consent requirements have been satisfied.

It is the employer’s responsibility to obtain appropriate tax and legal advice regarding the tax and legal consequences of death benefits paid for employer owned life insurance. This document is not intended to provide legal or tax advice.

Employer acknowledges that if the policy applied for is or may be employer owned as defined in IRC section 101, it may be required to obtain written consent from the insured employee prior to issuance of the life insurance policy. This consent should include, but may not be limited to, the following statements: (1) that the employee understands that life insurance on his or her life is being applied for by the employer and the maximum face amount of insurance for which the employee could be insured; (2) that the employee consents to being insured under such insurance; (3) that such insurance coverage may continue after the insured terminates employment from employer; and (4) that the employer will be the beneficiary of any proceeds payable upon the death of the employee.
